

More Manhattan and Emery Shirts Arrive

This morning's express brought in another large shipment direct from the mills, of those new Manhattan and Emery Shirts—beautiful ones—tasteful and refined in coloring and most generously proportioned.

There is no "skimping" when you buy a Manhattan or Emery Shirt; plenty of material used, for they are built to clothe a full-sized man, comfortably and becomingly. So, you see, you buy comfort as well as absolute style correctness. These new ones are cut coat style, both plaited and plain bosoms, and there is a full range of sleeve lengths.

A few Outing Shirts, with soft cuffs and collars, were included in the shipment. Soft Silks, Mohairs and Flannels in white, blue, ceru and some stunning plaids and stripes—exclusive designs shown only by the makers of these celebrated Shirts.

It would be a pleasure to show them to you when you are passing tomorrow.

Manhattans \$1.50 to \$5. Emerys \$1.00 to \$2.50.

TAFT

SURPRISES EVERYBODY BY HIS GREAT ACTIVITY.

Big Secretary of War's Trying To Break Roosevelt's Record in Panama.

Colon, April 4.—Secretary Taft reached Colon from the other side of the Isthmus and after luncheon he met a deputation of house owners of Colon and other citizens, who protested against the alleged unjust hardships imposed by the sanitary authorities and asking relief from the "unjust and intolerable conditions imposed in the carrying out of sanitary improvements here."

Secretary Taft has made a thorough examination of conditions on this Isthmus during this trip. At Gatun Dam Secretary Taft and party visited each test pit. Taft watched Representative Burton as he was

lowered into the largest hole that goes to the bottom of the lock.

Taft Surprises Everyone.

When Burton came to the surface Taft surprised everyone present by taking off his coat and stepping into the bucket. He was lowered to the bottom of the test pit in the center of the middle lock. F. B. Mather, first assistant engineer on the canal and William Grieg, who is in charge of the Pacific division, accompanied the secretary on his descent and explained every aspect of the soil and work in hand.

Later the secretary's party took a steam launch on the old French canal to Mindi, whence they came in a special train to Cristobal, where the dry docks and dredges will be inspected.

WILLSON

WILL ANNOUNCE FOR THE REPUBLICAN NOMINATION.

Several Leaders Confer at Washington and Louisville and Favor Him.

Louisville, April 4.—As a result of a number of conferences held in this city and Washington during the last few days, Mr. Augustus E. Willson will, within a few weeks, make formal announcement of his candidacy for the Republican nomination for governor. The date for the Republican state convention is now only a little over two months off. A number of gentlemen have been mentioned for the nomination for governor but the present outlook is that the coming Republican convention will be harmonious.

Three weeks ago Mr. Willson made a statement to the effect that he would like to have the Republican nomination and would like to be governor of Kentucky, but that he was not willing to jeopardize what he considered the fine chances of the Republican party by causing a factional fight.

WANTED TO BE SENATOR.

Rumor Says This Accounts For Harriman's Interest.

Washington April 4.—It was authoritatively declared at the white house today that the real reason for Mr. E. H. Harriman's interest in the election of the state ticket in New York in 1904, reference to which was made in the communications which passed between him and the president, was that he desired to advance his own ambitions. It is asserted that Mr. Harriman wanted the position of senator, now filled by Mr. Depew, and that this was the reason why he was anxious to have him appointed Ambassador to Paris. The inferences from Mr. Harriman's attitude, according to the statement made at the white house, was that if Senator Depew could be induced to go to Paris, that Governor Higgins was prepared to appoint Harriman to the vacancy.

New Army Pistols.

This new arm, which the United States army is preparing to adopt, is an automatic magazine pistol that neither looks like the revolver, nor loads like it, nor shoots like it. The cartridges, in packets of ten, are inserted in the stock. The firing recoil throws out the empty cartridge, a new one rising into place. Firing is automatic at pleasure. The soldier can thus discharge the 200 cartridges he carries almost without stopping.—Chicago Inter Ocean.

Individuality is the Key Note

What a world if we were all alike.

To be somebody you must be yourself

THE man of success these days has his own ideas—his business methods—his store keeping—his advertising—his dress are all reflections of himself. We can help you to Clothes of Individuality, and why? Because our showing is not limited to one or two lines as most stores. The immensity of our business enables us to carry a half dozen or more different makes, but few of a style, but oceans of styles—for example—just step in and see how many different styles in Men's Smart Spring Suits we can show you at

\$15.00

And \$15 is but one of the many lines of prices that range from \$7.50 to \$40. You'll find "uncommon clothes" in each line; individuality of cloth, of style, of the very buttons, even the least expensive of our Men's Spring Suits. We are showing distinct styles in Men's Fancy Suits. Do you know of another such display outside of the great cities?

It's the same with Neckwear, Shirts, Fancy Vests and Men's Fixings. It's a Paducah store, just a few days from New York. Step in and see how near you are to Broadway in Men's Haberdashery.
